

To all Oregon Senators and Representatives,

Leonardo once said I can turn a Triangle into a Square if I say it enough times...The point is the propaganda and deception surrounding the need for this bill has gone off the cliff! We all know who is behind the aggressive attacks on our constitutional rights, The very same rights you must have sworn to uphold when you took office.

I don't believe your oath said to back door or undermine the US constitution in any way possible. Would that not be an act of treason?

Through social engineering in our schools to our news It's quite obvious that this bill if passed will be directly instrumental in disarming future generations of Americans and to eventually abolish the Second Amendment that protects all of us and all our other rights. Our for fathers designed our rights to protect us not harm us!

Please see through the real intentions of the people that are selling us our demise and to stand for Americans not corporations, It's your children's future as well. We are just temporary custodians of our children's future, It would be very foolish not to learn from history and Iraq is a perfect example of when reality and history are ignored for a fantasy, If only the bad guy's have gun's will they pray on the defenseless as they have exhibited over and over? Please protect America and vote NO on 941 the devil is in the effects.

Sincerely,

M.D. Stewart, Oregon descendant of 1846

One man's Champion is another man's hindrance.

Facts are irrelevant in the game of perception.
