

As a citizen of Oregon I am entitled to representation while your taxing my labor. Please do what you were hired by the people to do.

All the people that were elected to represent the citizens took an oath to defend the constitution. All the elected officials that are supporting and sponsoring Sb941 should be charged with treason. Taking an oath is serious business and I guess money speaks louder than ethics and morals to the supporters of Sb941. This is a national plan to get a gun registry and to eventually disarm all citizens. I have news for you, that's not going to happen. I have better odds at seeing the petitioners of this bill going to jail for treason before Americans will comply with this blatant unconstitutional restriction.

All elected representatives work for the citizens and right now I'm hearing that the citizens want you fired! Your treasonous actions require that you be removed from office. SB941 should be tossed out along with the petitioners and sponsors of the bill.

Oh and thank you for exposing who you really are, communists, before you did more damage to our great nation.

Thank you in advance for dropping SB941 and for vacating your position immediately.

The sleeping giant is awakening, are you prepared for the consequences of your treasonous ways?
