

I strongly urge you to oppose this new bill because it is a waste of time and resources. It will only impede on law abiding citizens. It creates a great bottleneck in the processing of background checks that are routinely performed by firearms dealers. Creating a system of control over the people only causes resentment and the urge to revolt, which results in more crime. You are creating a process that will cause more crime if you enact this bill. Take a look at prohibition of alcohol. Of marijuana. How well did that work? Instead, why not work on ways to educate law abiding citizens on firearm safety?
