

Dear Sir/Madam,

Please remember that when you vote on ANY issue, but especially gun issues, the only people who

will be effected are law-abiding citizens. Laws have not prevented crimes in any area, they simply define

the punishment for those who get caught breaking them.

I have been voting since 1953 and I take the opportunity seriously. I don't always vote a straight party ticket.

I will vote for those officials who have my best interests at heart. Passing unenforceable laws that

jeopardize my ability to defend myself and my family are not in my best interest.

When you vote, please do so with all the rational thought you can muster.

Thank you for your honesty in any case.

Harvey Cheney
