Honorable Representatives,

I wish to enter my written testimony on [SB 941](#) and/or its' House Bill designate.

I am John Ingram a registered Independent in the State of Oregon residing in Salem, Oregon.

No need exists for a long diatribe here; Oregon has so many gun laws that we can't possibly enforce them all and this fact is borne out in Sheriffs Offices around the state who oppose this legislation, some even stating for the record that they will **NOT** enforce it if passed.

I forwarded an earlier, April 2015 PEW Research Poll that illustrates as Americans become more aware of gun laws, the less they want them and this includes especially the growing number of female gun owners who refuse to continue to be victims if they want to walk, jog, hike, camp or simply eat at a restaurant in Oregon with their family in which often times they are the lone head of household. Women want the same right to be reasonably prepared to protect their family as anyone else.

Representing your districts, I know you understand this. I urge you to commit to enforcing preexisting Oregon Laws & Revised Statutes before continuing the never ending legal upgrading of meaningless hoops for Oregonians to jump through.

Thank You

John Ingram
