

SB 941

I oppose this bill, and any and all proposed infringements of my natural rights.

I oppose this as someone who chose to be an Oregonian, who brought their family here, established businesses here, who made a life here - all on the basis that Oregon was a State with a good track record of upholding the law and protecting the inherent rights of We The People whom it serves.

All the fallacious talk of "common sense" we know for what it is: lies. This partisan bill is a violent and intolerant act of politicians run amok in a fallen Republic. Notice this, and act with honor and integrity. Kill SB 941, and any other tyrannical fiat that passes your way.

Sincerely,

Vigo Fox
