

Hello, my name is Brooks Ponto of Albany Oregon. I have a beautiful wife and three wonderful kids. At this time I think it's time to make my voice heard. I would like to think you're listening but I doubt it because you never do. You tell the people of Oregon that you do what we the people ask but it's a lie! Taking away any of our gun rights is unconstitutional but like many of our other rights they will slowly be taken away by people like you. It's not only a crime but very sad that we are losing the very same rights that made us proud Americans. Any further action against the people of Oregon will not be tolerated. Leave us alone!
