

Chair Monnes Anderson and Members of the Committee,

Teamsters Local 223 represents over 145 professionals who work alongside the nurses on blood drives operated by the American Red Cross in Oregon and SW Washington. Nurses are a great resource to our members on these blood drives operated in Oregon.

I am writing today to clarify any remaining confusion regarding our position on HB 2541A. An amendment was adopted in the House, that adequately addressed our initial concerns. With that amendment adoption, Teamsters Local 223 is neutral on HB 2541A as amended.

Sincerely,

David Tully
Labor Representative
Teamsters Local 223
