

As a survivor of a victim of "gun violence," I have spent much of the last twenty nine years, since I was widowed and my three children left half- orphaned, looking into what might prevent others suffering the way we did.

I have discovered many things which would NOT help, and SB 941 is merely the latest bit of idiocy.

I strongly oppose SB 941 as well as any other similar measures.

Sincerely,
Olga M. Jones
Sherwood
