I am letting you know that I am asking for Boring not to be in the Metro area. This never should have been done back in 1977 and I was living here at that time.

I was never notified of this and we now own a business that is in the Metro area and our home which is out of the Metro area. It has dividend the people and us. I want to save our community, and this wrong needs to be fixed now. It has taken over 2 years of dragging.

Please let us withdraw from Metro.

Thank you
