

Subject: Oppose min wage increase testimony

Hello,

I have 4 retail stores and 35 employees selling retail musical instruments. We're fighting for our lives against Amazon and other out of state mail-order companies. We're barely keeping the doors open and there is no extra money anywhere to increase compensation. I'd love to pay my people more, but there is no extra money. This mandatory wage hike would be the proverbial nail in the coffin.....

Respectfully
