

Dear Legislators,

My name is: Brondey Gil Silva I work for Mount Hood  
Community College Head Start since 2014. My position is: A Classroom Aid.

The reason of my letter is to explain the importance of raising minimum wage to \$15 dollars per hour because

Being a part time employee and only working 9 months out of the year isn't enough to support my family. which makes me have to find another job for the summer. that makes me not have and spend time with my family. 15 dollars an hour would be really nice to help me save a couple of dollars for the summer that I'm off. This raise would really help other families ~~who~~ who get paid the actual minimum wage. Not just mine.

Sincerely,
