Subject: HB 2460, DSL Fee Bill

Senator Edwards and the Senate Environment Committee,

Just a quick follow-up to yesterday's public hearing on HB 2460, DSL's utility fee bill. We have been working on this concept with DSL and our group of impacted utilities (invested-owned and consumer-owned) are good with the current version of the bill. We support you passing it out of committee on the 13th, as you have scheduled.

Thank you,

-Paul & Danelle Romain, Representing the Oregon People's Utility District Association
