

**REVENUE IMPACT OF
PROPOSED LEGISLATION
Seventy-Eighth Oregon Legislative
Assembly
2015 Regular Session
Legislative Revenue Office**

Bill Number:	SB 844 - 15
Revenue Area:	Marijuana Revenue
Economist:	Mazen Malik
Date:	05-07-2015

***Only Impacts on Original or Engrossed
Versions are Considered Official***

The revenue impact of this measure is indeterminate for the following reasons:

SB 844-15 directs the Oregon Health Authority to adopt rules that establish standards for testing, labelling and packaging marijuana products. SB 844-15 also requires that the Oregon Health Authority license laboratories to test products sold in the recreational marijuana system. Retail sales of marijuana cannot commence without sufficient licensed testing facilities or rules for packaging and labelling. The impact of the licensure of laboratories by the Oregon Health Authority could work positively to facilitate the commercial rollout and make it less cumbersome and less complicated, which allows for tax revenue to develop a stable predictable pattern. The Oregon Liquor Control Commission is directed, by statute, to begin accepting license applications for the retail marijuana system on January 4, 2016. However, no licensed producer will be able to sell their product without sufficient testing facilities in place. If the unfolding of the testing and control (seed to sale) regimes drags in a slow moving process, then SB 844-15 also presents a risk to measure-91 revenue from reliably making its way to the state coffers. The Operative dates for this amendment is July 1, 2017.
