

Please enter these comments into the SB 247 record.

I've lived in Oregon for 37 years and in central Oregon for 16 years. Fishing, wildlife watching and hunting are exceptionally important to our economy.

Please support SB 247 and the nominal fee increases it contains. and do not cut the ODFW Water Program or the Assistant district biologists:

Fully funding ODFW--especially the water program and biologists is important to me, central Oregon and Oregon.
