

Please enter these comments into the SB 247 record.

I am a hydrologist by training and employment. The state's water program is critical to the health of our waterways.

Please support SB 247 and the nominal fee increases it contains. and do not cut the ODFW Water Program or the Assistant district biologists:

Fully funding ODFW--especially the water program and biologists is important to me, and Oregon.

Sincerely,

Suzanne Fouty

Baker City, OR
