

Dear Joint Ways and Means Committee Members,

Please place my comments in the OLIS record.

Please support SB 247 and the nominal fee increases it contains. Please do not cut ODFW's Fish Water Program or assistant district biologists. As long as fish need water, Oregon will need these critical ODFW programs and staff. ODFW staff are involved in virtually every water allocation and reallocation decision in the state. These are essential capacities that must be maintained regardless of the budget climate at ODFW and regardless of whether fee increases or increased general fund appropriations occur. This is simply NOT the time to be divesting of expertise and capacity in water at any level of state government.

Thank you for your consideration.

Burke Greer
