

Good morning,

This email is regarding HB 3494-A. The meeting date on this bill is May 26th and I am unable to attend in person, but I wanted to voice my opposition. My name is Natalie Sobolewski and I am a resident of Portland, Oregon. The bill is a start, but it legitimizes devocalization and declawing animals. I am an animal lover and I see both of these as acts of animal cruelty. Please consider an amendment to remove all non-therapeutic exceptions to declawing and devocalization.

Thank you for your time,

Natalie Sobolewski
