

If you cannot afford to carry a video camera when you have a badge, do not carry a firearm, TASER, baton, or pepper spray. If your personal safety is more important than public safety, do not wear a badge or uniform as a pretense you are protecting public safety.

If all the police in the US were put in one city, it would be the size of San Jose, California. They have less than 45 homicides a year. No population that size has a crime rate as high as the police do. You can track them daily at The [@CatoInstitute](#)'s National Police Misconduct Reporting Project: [PoliceMisconduct.net \(@NPMRP\) | Twitter](#)

Over 1100 Dead in the past year. The list for this year so far is at a faster rate.

<http://www.killedbypolice.net/kbp2014.html>

<http://killedbypolice.net/>

21 February, March, and April deliberate deaths of citizens who were unarmed. That might imply a rate of 84 for the nation, but it is very difficult and unpleasant to track. You have to leave out those killed accidentally. That would include several who die every month as the result of being tased to death and those who are killed by police violating the traffic laws.
