**Subject:** HB 2509

Dear Ms. Reiley:

Please extend my opinion about HB 2509 to the Senate Environment Committee hearing HB 2509 today.

I oppose allowing Monsanto and other large agribusinesses to dictate to our state the use of their environment-killing products.

GMO products cannot “co-exist” alongside non-GMO farms. Anyone who thinks otherwise is blind to the facts and in denial.

I am for the Earth, as should be the ODA.

Sincerely,  
Keri Green  
Eugene, OR
