**Subject:** HB 3494-A OPPOSE!

Do not allow a vote on this bill. It is cruel and unfair to dogs and cats.

I would hope that our representatives have better things to do than to sit around coming up with a stupid, cruel and unjust bill.

I feel that someone (a representative or a friend of a rep) had a problem with a dog barking or a cat scratching and had the brilliant idea to come up with this bill. In other words could not deal with their issues so wrote this stupid bill to take care of the issue instead of being an adult and handling it correctly.

Dogs barking is a natural act. Cats scratching is a natural act. You can train both to stop this behavior if you try. That is the issue they don't want to try. Rather than work with their pets they take them to the vet and have this cruel procedure done to them. Why not try it yourself. Ask a mute individual if they would like their voice back. Ask an amputee if they would like their hands or arms back. I think the simple answer is YES! These individuals go thru a great deal of pain and mental anguish, don't you think the animals do as well.

Do not let this bill come to the floor. Our representatives need to put people to work. Help Oregonians find valuable jobs to better the economy and stop this unnecessary cruelty.

**STOP THIS NOW!** Grow up and take care of your pets in an adult manner.
