

Oregon Department of Education
Responses to 2015 Ways and Means Information Requests
5-19-15 (Updated)

From the May 19, 2015 meeting of the Education Subcommittee:

1. Regarding slide #8 (showing where the strategic investments went), is it possible to get the strategic investments on an ADM basis by county? (Representative Smith-Warner)

RESPONSE: Please see the attached document showing the investments on an ADM basis by school district. This should closely approximate the amounts by county.

2. Regarding slide #36 (Eastern Promise):

a) Do universities recognize credits students receive from high school and community college?

b) Are students less likely to need remediation courses after receiving credits from Eastern Promise participating schools and post-secondary entities? (Representative Huffman)

RESPONSE:

a) Yes, consistently four year public institutions accepted credit in the students major course of study. Private institutions tended to accept credit at minimum for students general education requirements. Not all were accepted in the students chosen course of study.

b) Eighty-one percent (81%) of students who received credit **did not** need to take remediation courses (those enrolling in post-secondary institutions in 2013-2014). Eastern Promise is currently collecting data to see if this phenomenon persists.

District	Amount	ADM (13-14)	Amt Per Studer	City	County
Adel School District 21	\$6,400	6.24	\$1,025.72	Lakeview	Lake
Adrian School District 61	\$9,937	222.77	\$44.61	Adrian	Malheur
