LEGAL COUNSEL

Daryl Garrettson
Attorney at Law

Date: May 26, 2015

To: Public Safety Subcommittee of Ways and Means

Subject: *Senate Bill 128-A*

The Oregon State Police Officers' Association strongly supports Senate Bill 128-A to establish telecommunicator (dispatcher) compensation comparators among the "five public safety answering points" in the state. Our goal is to retain and recruit high quality dispatchers to meet the department's vision of Premier Public Safety Services for Oregon. Unfortunately, this is not the case with vacant FTEs, high turnover rates, and extended leave usages.

With two regional dispatch centers servicing all of Oregon, it is imperative that we encourage recruitment, retention, and wellness by actively pursuing a relevant and competitive market. Dispatch centers are working environments where hyper-vigilance is the rule, not the exception. Recent comparisons with the cities of Portland and Salem, along with Washington, Clackamas, and Lane counties indicate a significant disparity. Our telecommunicators' earnings are approximately 25% less than the aggregate average among these major comparators.

The Oregon State Police Officers' Association appreciates the committee's time and openness to address this public safety matter. Please support our telecommunicators by creating an environment which factors into the organization's long-term sustainability.

Michael S. Iwai, Vice President
Oregon State Police Officers' Association
