

I Kirsten Lynne Haines is fully against HB 3494-A that will be purposed on June 2nd 2015. It contains unacceptable loopholes and will NOT protect dogs and cats. The bill would allow declawing and devocalization to continue unchecked in Oregon at the sole discretion of veterinarians. The bill is NOT a step forward for animals. Rather, it is a step backwards in the movement to protect animals from unnecessary harm. It and needs AMENDMENTS TO REMOVE ALL NON-THERAPEUTIC EXCEPTIONS.

Thank you.
