

Dear Maria Hernandez,
I am a registered voter of the state of Oregon and I'm writing this email regarding HB3494A.

I implore you to please hear my opinion regarding the declawing and devocalization of cats and dogs.

Please know there are other solutions, more humane solutions, to solve the issue at hand.

Scratching and clawing is a NATURAL behavior of cats - (Consider soft claw caps for kitty claws! Go to SoftPaws.com)

When you remove their claws they start to bite more.

Dogs bark, it's what they do. It's natural.

I STRONGLY OPPOSE HB3494A.

Sincerely,
Pamela Anderson
