

Dear Senators

I'm writing today to ask you to oppose HB 3212. This bill essentially allows individuals or businesses to ignore the law if it just doesn't suit them, by requiring the community to compensate them or waive the unwanted regulation.

If this is the kind of legislation that makes sense for Oregon, you might as well go home because it makes the legislature irrelevant. Why craft laws for the common good to protect people, animals, our environment if we sign into law that it applies only some of the time?
