

## Proposed amendments to HB 2300

1. Raise age to 18 – people under 18 can't consent to experimental treatment independently in OR
2. Develop process like OR Death With Dignity Act:
  - a. Two separate MD's with waiting period
  - b. Doctors must be clear that patient is:
    - i. Competent
    - ii. Not being coerced or unduly influenced by family or friends
    - iii. Clearly understands that there is no evidence that treatment is effective
    - iv. Clearly understands that all medical expenses from here on out will be self-pay
  - c. Forms to submit to OHA
  - d. OHA tracks patients until death or 10 years after treatment, whichever comes first.
    - i. Adverse effects
    - ii. Positive effects
    - iii. Costs
    - iv. Demographics of patients who use the process
  - e. Study use of this process compared to compassionate use process
3. Six year sunset
4. After Phase 2 only (not after Phase 1, when hasn't been proved to have any positive effect (this provision least important to change)
