

As the 2015 Legislative Session winds down, I urge you to support SB 900. This bill would display the median prices paid for common procedures at each hospital by commercial and other insurers. This would allow for greater transparency in health care, which would help patients, and advance care. I do not understand how anyone could be opposed to this legislation - it is a win for hospitals, a win for insurers, and most importantly a win for consumers.

Thank you,
