

**SB 475**

**Relating to youth care centers**

---

SB 475 expands educational services provided by Juvenile Detention Education Programs to include juveniles in youth care centers within detention facilities. There are currently eleven juvenile detention centers in the state of Oregon however only one site in Roseburg has a youth care center which will be affected by the bill.

The bill does not change the total State School Fund formula however it will cause a shift in the distributions of the revenues; distributions will shift from the Roseburg School District which is currently providing these education services, to the Juvenile Detention Education Programs. The shift in revenue distribution is estimated to be \$161,782 for the 2015-17 biennium.

The Education Subcommittee recommends SB 475 be reported out do pass.
