DETAILS

We are opposed to HB3400 amendment -28, -29, and -31 which hopes to preempt counties and cities right to ban marijuana based on the requirement that a city or county must have had a 55% vote result of the measure 91 election results before they can have that right.

Measure 91 manufacturing, processing, wholesaling and retailing is federally illegal and still calls into question the issue surrounding Home Rule Authority. Oregon's laws have long allowed a city or county the power to adopt ordinances on any matter, and we the voters of each city and county support this right. Highly funded out-of-state ballot initiatives that seek to require cities and counties to abandon its responsibility to federal law requirements should not be allowed. The many potential public safety, quality of life, and property value risks involved in seeking such a requirement will not set well with citizens across the State of Oregon and we believe that the recent impasse with SB844 is a reflection of that feeling.

Though we understand the complexity of this issue, it is unconscionable that our legislator's would say to some of the cities and counties in this State that it is ok to prohibit marijuana manufacturing, processing, wholesaling and retailing based on the fact that it is a federally illegal drug, and then on the other hand tell the rest of the State that it's not ok unless it goes direct to the voters is at most one of the most discriminatory compromises yet. That is like creating a segregated law, how can that be even legal?

According to the Oregon Health Authority, there are already over 46,570 medical marijuana growers in the State, all of which are unregulated, untaxed, and unlicensed and measure 91's attempt to simply layer another federally illegal process over the top of an already non-working one is simply just another corrupt legality and the citizens of this state living in communities that are being impacted are simply not going to accept this type of compromise on their behalf.

There are citizens that:

- have experienced living next to one of these unregulated marijuana grows where there have been fatal shootings
- have experienced living next to marijuana grows where the skunk smell of marijuana is so strong that they cannot even sit out on their own porch without being impacted by these smells
- There are others who are watching large pieces of properties in their communities being purchased for the sole reason of growing marijuana without any concern that they are surrounded by rural residential neighborhoods where families live

We would encourage the committee to reflect on the fact that when compromises that relinquish our responsibilities to Public Safety, Quality of Life, and Property Values are made, it is a reflection that it is impossible to balance trying to regulate a federally illegal drug throughout the State, because the segregated compromise in itself reveals the challenge that there is no safe way to regulate marijuana and this compromise will not be well received by citizens throughout Oregon, especially in those cities and counties in which the opposing vote won by the majority of 51% or greater.

Respectfully,

Citizens for Public Safety, Quality of Life, and protection of Property Values
