Subject: HB 3099 - Work Session Recommendations

HB 3099 relates to state information technology. The bill would transfer certain duties, functions and powers related to enterprise information technology (IT) and telecommunications from the Oregon Department of Administrative Services (DAS) to the State Chief Information Officer (CIO). The measure provides that the State CIO is the primary information technology and telecommunications advisor to the Governor and that State CIO duties are specified by the Governor. The bill also makes changes to existing statutes to clarify the respective duties, functions and powers of DAS and the DAS Director for enterprise IT operations and IT procurement and of the State CIO for enterprise IT planning, policy, rulemaking, standards setting, oversight.

Materials related to HB3099 are posted on OLIS.

The A13 Amendment makes further changes to existing statutes to transfer the duties, functions and powers of DAS and the DAS Director for enterprise IT and telecommunications operations and service delivery to the State CIO. The amendment modifies proposed changes to ORS 184.477 to give the State CIO flexibility in enforcing terms and conditions of IT contracts. The A13 Amendment also deletes specific proposed changes to ORS 279A.050 and ORS 291.047. The effect of these DOJ requested deletions is to revert back to existing statutory language. In addition, the A13 Amendment deletes specific proposed changes to ORS 279A.050 and modifies definitions proposed in ORS 291.039. The effect of these Secretary of State (SOS) requested deletions and modifications is to maintain existing SOS and Oregon State Treasury (OST) independent authorities and exemptions. Further, the amendment modifies ORS 291.038 requiring SOS and OST to work in collaboration with the State CIO to develop and adopt IT related plans, policies and standards for SOS and OST that are, to the extent possible, compatible with plans, policies and standards adopted by the State CIO for all other state agencies within the executive branch. SOS and OST will also be required to submit adopted plans, policies, and standards, copies of IT audits and quality assurance reports, and an annual report on all IT initiatives and IT procurements with an estimated cost exceeding \$1 million to the LFO. Finally, the A13 Amendment deletes specific proposed changes to chapter 782, Oregon Laws 2009. The effect of these Oregon Business Development Department (OBDD) requested changes is to maintain the current placement of the Oregon Broadband Advisory Council (OBAC) within the OBDD.

The A13 Amendment was unanimously recommended for adoption by the IT Subcommittee at a Public Hearing and Worksession for HB3099 held on June 16, 2015.

Amendment

LFO recommends adoption of the A13 amendment.

Motion #1:

Move to adopt the A13 amendment to HB 3099.

Measure to Full

LFO recommends the measure as amended be moved to the Full Committee on Joint Ways and Means.

Motion #2: Move HB 3099 as amended to the Full Committee with a “do pass as amended” recommendation.

FISCAL IMPACT OF PROPOSED LEGISLATION**Measure: HB 3099 - A13**Seventy-Eighth Oregon Legislative Assembly – 2015 Regular Session

Measure Description:

Transfers certain duties, functions and powers related to enterprise information technology and telecommunications from Oregon Department of Administrative Services to State Chief Information Officer.

Government Unit(s) Affected:

Statewide, Department of Administrative Services (DAS)

Summary of Expenditure Impact:

See Analysis below

Local Government Mandate:

This bill does not affect local governments' service levels or shared revenues sufficient to trigger Section 15, Article XI of the Oregon Constitution.

Analysis:

The measure transfers policy, planning, oversight and operational authority for Enterprise IT and Telecommunications from the Department of Administrative Services (DAS) to the State Chief Information Officer (SCIO). While the bill maintains the Office of the SCIO as a component of DAS, it clarifies that specified duties of the SCIO are under the direction of the Governor and provides that the Governor will resolve any dispute between the SCIO and DAS relating to the provisions of this bill. Other major provisions of the bill include:

- Requires DAS and state agencies to follow rules, policies and standards adopted by the SCIO
- Requires the SCIO to review all information technology contracts of \$1 million or more and authorizes the SCIO to review and approve all information technology and telecommunications contracts prior to the contracts being released
- Specifies when the SCIO has the authority to approve, pause or stop IT projects
- Specifies that the SCIO is responsible for the Enterprise Information Resources Management Strategy
- Outlines work and reports of agencies that must align with and support the Enterprise Information Resources Management Strategy
- Maintains current authority of agencies for their own IT operations and procurement
- Allows the DAS director to delegate additional procurement authority to the SCIO
- Authorizes the SCIO to make all administrative and organizational decisions for the Office of the SCIO
- Makes the SCIO responsible for specified work groups, advisory boards and committees
- Creates the Information Technology Operating Fund to be used for the expenses of the Office of the SCIO
- Requires the offices of the Secretary of State and the State Treasurer to submit specified information to the Legislative Fiscal Officer and to adopt, in collaboration with the SCIO, information technology and telecommunications plans, policies, standards and procedures that are, to the extent possible, compatible with those adopted for all other state agencies

Some of the changes in the bill will not create additional costs for DAS, including the Office of the SCIO, as they simply transfer work from one part of the agency to another part of the agency. However, other components of the bill increase the scope of duties and authority of the SCIO and make clear in the law the level of review and direction that is expected to be completed by the SCIO for state agency IT and telecommunications operations, contracts and projects. To implement these changes, the Office of the SCIO will need additional resources, although the amount of staffing and funding needed will remain indeterminate until the SCIO determines how the new requirements will be implemented, as well as to what degree the SCIO chooses to exercise authority that is granted, but not required, under the measure. For context, one IT analyst 2 position costs approximately \$250,000 for the full 2015-17 biennium, which does not include associated services and supplies costs. Again, it is unclear how many additional FTE would be needed to fulfill the required components of the measure.

It should be noted that there are policies currently in place requiring agencies to seek the approval of DAS or the SCIO for IT investments and telecommunications systems or contracts; however, a recent audit conducted by the Office of the Secretary of State determined that the Office of the SCIO is currently understaffed to be able to adequately fulfill its statutory duties and current policies. DAS has proposed a policy option package that would add 12 positions at a cost of \$3.4 million in 2015-17 to augment the Office of the SCIO. The package has been recommended for inclusion in the DAS budget by the General Government Subcommittee of the Joint Committee on Ways and Means. The Office of the SCIO indicates that should that package be approved, they would have the capacity to complete much or all of the work required under the measure. It would still remain to be determined if additional staff and resources would be needed to exercise provisions of the law that the SCIO is authorized, but not required, to perform. The Office of the SCIO notes that they may need to return to the Legislature to request an increase in their budget authority and staffing once the full effect of the changes are known.

WHAT THE MEASURE DOES:

Provides that State Chief Information Officer (CIO) is the primary advisor to the Governor on information technology (IT) and telecommunications. Provides that State CIO duties are specified by the Governor. Transfers authority for IT and telecommunications policy, including planning, rulemaking, standard setting, and oversight from Department of Administrative Services (DAS) to State CIO. Retains DAS authority and responsibility for statewide IT and telecommunications operations and services but requires those operations and services to be provided in a manner consistent with the rules, policies and standards adopted by the State CIO. Retains DAS authority for IT procurement. Provides authority for State CIO to review IT solicitation documents and all IT procurements over \$1 million, and to direct state agencies to include State CIO as contracting party on behalf of state. Provides authority for State CIO to approve, modify or stop IT projects and approve, suspend or cancel IT contracts over \$1 million.

EFFECT OF COMMITTEE AMENDMENT:

Makes further changes to existing statutes to transfer the duties, functions and powers of DAS and the DAS Director for statewide IT and telecommunications operations and service delivery to the State CIO. Modifies proposed changes to ORS 184.477 to give the State CIO flexibility in enforcing terms and conditions of IT contracts. Deletes specific proposed changes to ORS 279A.050 and ORS 291.047 to revert back to existing statutory language. Deletes specific proposed changes to ORS 279A.050 and modifies definitions proposed in ORS 291.039 to maintain existing Secretary of State (SOS) and Oregon State Treasury (OST) independent authorities and exemptions. Modifies ORS 291.038 to require SOS and OST to work with the State CIO to develop and adopt IT related plans, policies and standards for their offices that are, to the extent possible, compatible with plans, rules, policies and standards adopted by the State CIO for all other state agencies within the executive branch. Requires SOS and OST to submit specified documents and reports to the LFO. Deletes specific proposed changes to chapter 782, Oregon Laws 2009 to maintain current placement of the Oregon Broadband Advisory Council within the Oregon Business Development Department.

BACKGROUND:

DAS oversees state agency implementation of the policy and financial decisions made by the Governor and the Oregon Legislature and supports other state agencies by providing a variety of centralized and shared services, including human resources, accounting, procurement, information technology and telecommunications, printing,

leasing property and administering the state government motor pool. Statewide policy and service delivery functions relating to information technology (IT), geographic information systems, information security and telecommunications are currently housed within DAS, with limited authority and responsibility for planning, policy, rulemaking and oversight given to the State CIO via delegation from the DAS Director or by the Legislative Assembly in House Bill 3258 (2013). Under current law (ORS 291.039), the State CIO is appointed by the Governor and the Office of the State CIO is housed within DAS.

21 electronic government portals to provide government services and user sat-
22 isfaction with electronic government portals.

23 “(c) Study, propose, develop or coordinate activities that:

24 “(A) Consider the needs of residents of this state;

25 “(B) Evaluate the performance and transparency of state agency delivery
26 of government services; and

27 “(C) Further the effectiveness of and user satisfaction with:

28 “(i) Electronic government portals; and

29 “(ii) State agencies’ performance and accountability in [*the use of*] **using**
30 electronic government portals to provide government services.

1 “(4) A majority of the members of the advisory board constitutes a quo-
2 rum for [*the transaction of*] **transacting** business.

3 “(5) [*Official action by the advisory board requires the approval of*] A ma-
4 jority of the members of the advisory board **must approve official action**
5 **by the advisory board.**

6 “(6) The advisory board shall elect one of the members of the advisory
7 board to serve as chairperson.

8 “(7) If a vacancy on the advisory board occurs for any cause, the ap-
9 pointing authority shall make an appointment [*to become*] **that becomes**
10 immediately effective.

11 “(8) The advisory board shall meet at times and places [*specified by the*
12 *call of*] **that** the chairperson or [*of*] a majority of the members of the advi-
13 sory board **specifies.**

14 “(9) The advisory board may adopt rules necessary [*for the operation of*]
15 **to operate** the advisory board.

16 “(10) The Oregon Department of Administrative Services shall provide
17 staff support to the advisory board.

18 “(11) Members of the advisory board who are not members of the Legis-
19 lative Assembly [*are not entitled to*] **may not receive** compensation, but may
20 be reimbursed for actual and necessary travel and other expenses the mem-
21 bers incur in the performance of the members’ official duties in the manner
22 and amounts provided for in ORS 292.495. Claims for expenses [*incurred*] **the**
23 **members incur** in performing functions of the advisory board shall be paid
24 out of funds appropriated to the Oregon Department of Administrative Ser-
25 vices for purposes of the advisory board.

26 “(12) All state agencies shall assist the advisory board in the advisory
27 board’s performance of the advisory board’s duties and, to the extent per-
28 mitted by laws relating to confidentiality, to furnish information and advice
29 as the members of the advisory board consider necessary to perform the du-
30 ties of the advisory board.

1 **“SECTION 15.** ORS 182.132 is amended to read:

2 “182.132. (1) The [*Oregon Department of Administrative Services*] **State**
3 **Chief Information Officer**, with the advice of the Electronic Government
4 Portal Advisory Board, shall provide the ability for state agencies to offer
5 government services by means of an electronic government portal. The elec-
6 tronic government portal must be secure and must [*meet*] **comply with the**
7 **information security rules, policies and standards that the State Chief**
8 **Information Officer adopts under ORS 182.122 and meet the** usability
9 standards developed in cooperation with the advisory board.

10 “(2) For the purposes of subsection (1) of this section, the [*department*]
11 **State Chief Information Officer**, under the provisions of the Public Con-
12 tracting Code, may contract with an electronic government portal provider
13 **in a manner that is consistent with the State Chief Information**
14 **Officer’s rules, policies and standards.**

15 “(3)(a) The [*department*] **State Chief Information Officer** may charge
16 members of the public a convenience fee or may authorize an electronic
17 government portal provider to charge a convenience fee for an electronic
18 government service if the advisory board recommends that the [*department*]
19 **State Chief Information Officer** charge or authorize a convenience fee for
20 the electronic government service. The convenience fee must reflect the costs
21 incurred in hosting, operating, maintaining or implementing the electronic
22 government portal.

23 “(b) The [*department*] **State Chief Information Officer** shall cooperate
24 with the advisory board to identify the electronic government portals or
25 governmental services to which the convenience fee applies.

26 “(4) The [*department*] **State Chief Information Officer** may adopt rules
27 to implement the provisions of this section.

28 “(5) Not later than the beginning of each odd-numbered year regular leg-
29 islative session, the [*department*] **State Chief Information Officer** shall
30 prepare and submit to the Legislative Assembly a report in the manner pro-

1 vided in ORS 192.245 that summarizes the [*department's*] **State Chief In-**
2 **formation Officer's** activities under the provisions of this section.

3 **“SECTION 15a.** ORS 184.305 is amended to read:

4 “184.305. The Oregon Department of Administrative Services is created.
5 The purpose of the Oregon Department of Administrative Services is to im-
6 prove the efficient and effective use of state resources [*through the provision*
7 *of*] **by providing:**

8 “(1) Government infrastructure services that can best be provided cen-
9 trally, including but not limited to purchasing, risk management, facilities
10 management, surplus property and motor fleet;

11 “(2) Rules and associated performance reviews of agency compliance with
12 statewide policies;

13 “(3) Leadership in [*the implementation of*] **implementing** a statewide
14 performance measurement program;

15 “(4) State employee workforce development and training;

16 “(5) Personnel systems that promote fair, responsive and cost-effective
17 human resource management;

18 “(6) Objective, credible management information for, and analysis of,
19 statewide issues for policymakers; **and**

20 “(7) Statewide financial administrative systems[; *and*].

24 **operating any central telephone exchange, switching system, network**
25 **service and facility, intercity or intracity network trunk or line or**
26 **switchboard to the state agencies that the State Chief Information**
27 **Officer serves. The department shall charge the cost of providing mail,**
28 **shuttle bus and messenger services to the state agencies that the de-**
29 **partment serves. The state agencies shall pay the costs to the State**
30 **Chief Information Officer or the department, as appropriate, in the**

1 **same manner in which the state agencies pay other claims. The State**
2 **Chief Information Officer shall deposit all moneys that the State Chief**
3 **Information Officer receives from state agencies for services under**
4 **this section into the State Information Technology Operating Fund.**

5 “(2) If the department operates central mail service, [it] **the department**
6 shall:

7 “(a) Approve or disapprove all state agency mail equipment or mail ser-
8 vice acquisitions.

9 “(b) Report biennially to the Director of the Oregon Department of Ad-
10 ministrative Services on opportunities for savings through state agency mail

4 “291.032. The Oregon Department of Administrative Services, **or the**
5 **State Chief Information Officer for purposes related to information**
6 **and telecommunications technology**, may provide technical services to
7 state agencies for management improvement development and the develop-
8 ment of economies in the organization and administration of state agencies.
9 The technical services may include consulting studies in work simplification,
10 work measurement, equipment utilization and other management improve-
11 ment concepts. The **department or the State Chief Information Officer**
12 **shall determine and charge the** cost of the technical services, or portions
13 *[thereof, as determined by the department, shall be charged]* **of the technical**
14 **services**, to the **state** agency served *[and paid]*. **The state agency shall**

29 *claims against the agency are paid.]* **The State Chief Information Officer**
30 **may provide technical services to state agencies for data processing**

1 systems development and developing data processing methods and ap-
2 plications in a manner that is consistent with the State Chief Infor-
3 mation Officer’s rules, policies and standards. The technical services
4 may include consulting and programming services and assistance in
5 locating electronic data processing installations. The State Chief In-
6 formation Officer shall determine and charge the cost of the technical
7 services, or portions of the technical services, to the state agency that
8 the State Chief Information Officer serves. The state agency shall pay
9 the cost to the State Chief Information Officer in the same manner
10 that the state agency pays other claims against the state agency. The
11 State Chief Information Officer shall deposit all moneys that the State
12 Chief Information Officer receives from state agencies for services
13 under this section into the State Information Technology Operating
14 Fund.

15 **“SECTION 41.** ORS 291.038, as amended by section 4, chapter 102, Oregon
16 Laws 2014, is amended to read:

17 “291.038. (1)(a) The State Chief Information Officer shall oversee [*policy*
18 *for*] and coordinate **the** planning, **budgeting**, architecture and standardi-
19 zation, **consolidation, acquisition and oversight** of all information and
20 telecommunications technology by state government and agencies of state
21 government so that statewide and individual state agencies’ plans and ac-
22 tivities are addressed in the most integrated, economic and efficient manner,
23 in a manner that minimizes duplication, fragmentation, redundancy and cost
24 in state [*agency*] **government** operations and in a manner that most effec-
25 tively meets state **government and state** agency program needs.

26 **“(b)(A) Except as otherwise provided by law, the office of the Sec-**
27 **retary of State and the office of the State Treasurer, in collaboration**
28 **with the State Chief Information Officer, shall develop and adopt**
29 **plans, policies, standards and procedures for budgeting, planning,**
30 **procuring, managing, overseeing and using information technology**

1 and telecommunications for the Secretary of State or the State
2 Treasurer, as appropriate. Each office shall ensure that the office's
3 plans, policies, standards and procedures are, to the extent possible,
4 compatible with the plans, policies, standards and procedures that the
5 State Chief Information Officer develops and adopts for other state
6 agencies within the executive department.

7 **“(B) The Secretary of State and the State Treasurer shall submit
8 to the Legislative Fiscal Office:**

9 **“(i) Copies of plans, policies, standards and procedures that the
10 Secretary of State and the State Treasurer develop and adopt under
11 subparagraph (A) of this paragraph. The Secretary of State and the
12 State Treasurer shall submit copies of the plans, policies, standards
13 and procedures within 30 calendar days after adopting or amending the
14 plans, policies, standards or procedures.**

15 **“(ii) Copies of any independent information technology audits or
16 quality assurance reports that are public records and are not exempt
17 from disclosure under ORS 192.410 to 192.505. The Secretary of State
18 and the State Treasurer shall submit copies of the audits or reports
19 within 30 calendar days after receiving the audits or reports.**

20 **“(iii) An annual report on all information technology initiatives, as
21 defined in section 1, chapter 77, Oregon Laws 2014, and all procure-
22 ments with an estimated contract price that exceeds \$1 million. The
23 Secretary of State and the State Treasurer shall submit the report not
24 later than December 31 of each calendar year.**

25 **“(2) To facilitate accomplishment of the purpose set forth in subsection
26 (1)(a) of this section, the State Chief Information Officer shall:**

27 **“(a) Adopt rules, policies and standards to plan for, develop architecture
28 for and standardize the state's information resources and technologies. In
29 developing rules, policies and standards, the State Chief Information Officer
30 shall consult with state agencies that have needs that information resources**

1 may satisfy. State agencies shall cooperate with the State Chief Information
2 Officer in preparing and complying with rules, policies and standards **that**
3 **the State Chief Information Officer adopts.**

4 “(b) Formulate rules, policies and standards to promote electronic com-
5 munication and information sharing among state agencies and programs,
6 between state and local governments and with the public where appropriate.

7 “[*(c) Seek to minimize duplicative or redundant advisory boards by recom-*
8 *mending streamlined governance structures for information technology projects*
9 *that involve more than one state agency, board or commission.*]

10 “[~~(3)~~] (c) [*The State Chief Information Officer shall*] Formulate rules,
11 policies, plans, standards and specifications to ensure that information re-
12 sources and technologies fit together in a statewide system capable of pro-
13 viding ready access to information, [*computing*] **information technology** or
14 telecommunication resources. Plans and specifications that the State Chief
15 Information Officer adopts must be based on industry standards for open
16 systems to the greatest extent possible.

17 “**(3)** Before adopting rules described in subsection (2) of this section, the
18 State Chief Information Officer shall present the proposed rules to the Joint
19 Legislative Committee on Information Management and Technology.

20 “**(4)** The State Chief Information Officer has the responsibility to review,
21 oversee and ensure that state agencies’ rules and planning, acquisition and
22 implementation activities **related to information technology and tele-**
23 **communications** align with and support the [*statewide information resources*
24 *management plan*] **Enterprise Information Resources Management**
25 **Strategy. State agencies shall cooperate with the State Chief Infor-**
26 **mation Officer to ensure that the state agencies’ rules and planning,**
27 **acquisition and implementation activities align with and support the**
28 **Enterprise Information Resources Management Strategy. If the**
29 **Oregon Department of Administrative Services procures information**
30 **technology or the Director of the Oregon Department of Administra-**

1 **tive Services delegates authority under ORS 279A.075 to procure in-**
2 **formation technology, the [Oregon Department of Administrative Services**
3 **is responsible for procuring] department and a state contracting agency,**
4 **as defined in ORS 279A.010, shall procure** information technology fairly,
5 competitively and in a manner that is consistent with the State Chief Infor-
6 mation Officer's rules, **policies and standards.**

7 “[~~(4)(a)~~] **(5)(a)** The policy of the State of Oregon is that state government
8 telecommunications networks should be designed to provide state-of-the-art
9 services where economically and technically feasible, using shared, rather
10 than dedicated, lines and facilities.

11 “(b) The [*department*] **State Chief Information Officer** shall, when pro-
12 curing telecommunications network services, consider [*achieving the eco-*
13 *nomie development and quality of life outcomes set forth in the Oregon*
14 *benchmarks*] **the goals and objectives outlined within the Enterprise**
15 **Information Resources Management Strategy and the policy, acquisi-**
16 **tion, coordination and consolidation objectives for information tech-**
17 **nology that are specified in ORS 283.500 to 283.520 and 283.524.**

18 “[~~(5)(a)~~] **(6)(a)** The [*department*] **State Chief Information Officer**, upon
19 request, may furnish and deliver statewide integrated videoconferencing and
20 statewide online access service to a public or private entity that primarily
21 conducts activities for the direct good or benefit of the public or community
22 at large in providing educational, economic development, health care, human
23 services, public safety, library or other public services. The [*department*]
24 **State Chief Information Officer** shall adopt rules with respect to [*fur-*
25 *nishing*] **the State Chief Information Officer's furnishing of** the service.

26 “(b) The [*department*] **State Chief Information Officer** shall establish
27 statewide integrated videoconferencing and statewide online access user fees,
28 services, delivery, rates and long range plans. The rates must reflect the
29 [*department's*] **State Chief Information Officer's** cost in providing the
30 service.

1 “(c) The [*department*] **State Chief Information Officer** by rule shall re-
2 strict the [*department’s furnishing or delivery of*] Internet access service **that**
3 **the State Chief Information Officer furnishes or delivers** to private en-
4 tities if the service would directly compete with two or more local estab-
5 lished providers of Internet access services within the local exchange
6 telecommunications service area.

7 “(d) The rates and services established and provided under this section
8 are not subject to the Public Utility Commission’s regulation or authority.

9 “[(6)] (7) An organization or organizations recognized as tax exempt under
10 section 501(c)(3) of the Internal Revenue Code that primarily conduct activ-
11 ities for the direct good or benefit of the public or community at large in
12 providing educational, economic development, health care, human services,
13 public safety, library or other public services and **that** have formed an af-
14 filiation with one or more federal, state or local governmental units within
15 this state may apply to the [*department*] **State Chief Information Officer**
16 for designation as a community of interest. The application must be in the
17 form that the [*department*] **State Chief Information Officer** prescribes and
18 contain information [*regarding*] **about** the governmental affiliation relation-
19 ship, the tax exempt status of each organization and the public benefit ser-
20 vices the organization provides or intends to provide. The [*department*] **State**
21 **Chief Information Officer** shall establish an application review and appeal
22 process to ensure that designating the organizations as a community of in-
23 terest for the purposes of including the organization in telecommunications
24 contracts under ORS 283.520 will result in providing educational, medical,
25 library or other services for public benefit.

26 “[(7)] (8) This section does not apply to the State Board of Higher Edu-
27 cation, [*or*] any public university listed in ORS 352.002 **or a public univer-**
28 **sity with a governing board that is listed in ORS 352.054.**

29 “[(8)] (9) As used in this section **and ORS 291.039:**

30 “(a) ‘Information resources’ means media, instruments, **plans** and methods

1 for *[planning,*] collecting, processing, transmitting and storing data and in-
2 formation, including telecommunications.

3 “(b) ‘Information technology’ [*includes, but is not limited to,*] **means**
4 present and future forms of hardware, software and services for data pro-
5 cessing, office automation and telecommunications.

6 “(c) ‘Internet access service’ means electronic connectivity to the Internet
7 and the services of the Internet.

8 “(d) ‘Open systems’ means systems that allow state agencies freedom of
9 choice by providing a vendor-neutral operating environment where different
10 computers, applications, system software and networks operate together eas-
11 ily and reliably.

12 “(e) ‘State-of-the-art services’ [*includes*] **means the highest level at**
13 **which** equipment, facilities and the capability to distribute digital commu-
14 nication signals that transmit voice, data, video and images over a distance
15 **have developed at the time during which the equipment, facility or**
16 **capability was installed or operating.**

17 “(f) ‘Statewide integrated videoconferencing’ means a statewide electronic
18 system capable of transmitting video, voice and data communications.

19 “(g) ‘Statewide online access’ means electronic connectivity to informa-
20 tion resources such as computer conferencing, electronic mail, databases and
21 Internet access.

22 “(h) ‘Telecommunications’ means hardware, software and services for
23 transmitting voice, data, video and images over a distance.”.
