BACKGROUND:

The Oregon Department of Fish and Wildlife (ODFW) receives funding from several sources. In the 2013-15 biennium, a third of ODFW's revenue came from the sale of hunting and fishing licenses. Another third came from the federal government – much of it tied to the sale of hunting and fishing equipment. The rest of the department funding came from a variety of sources. Most of that funding could be used only for specific purposes spelled out in grants, contracts or statute. Roughly six percent of ODFW's revenue came from Oregon's general tax dollars and the lottery combined.

House Bill 2402 establishes a Task Force to identify and recommend alternative funding strategies and opportunities to leverage existing funds for ODFW.
