

Letter to Oregon Legislature in Support of House Bill 3470

June 10, 2015

We the undersigned businesses in Oregon support the Climate Stability and Justice Act (House Bill 3470) and urge your leadership in passing the bill.

As business leaders, we recognize a clear and present need for action on climate to protect Oregon's natural assets, its vibrant communities, and its growing economy. We can create a healthy climate and build a strong, more resilient economy by reducing greenhouse gases.

Oregon has already enacted strong, science-based targets for reducing global warming pollution, but the state is not on track for meeting those goals. The Climate Stability and Justice Act would simply enforce Oregon's existing greenhouse gas reduction goals and direct the state to implement cost-efficient, market-based programs to ensure that emissions stay below those limits.

The Climate Stability and Justice Act can level the playing field for clean energy solutions in Oregon, foster innovation and technological progress, and advance public health. It is the right opportunity for Oregon at the right time. Accordingly, we ask for your support of the Climate Stability and Justice Act.

Sincerely,
