

Dear Members of the House Committee on Rules,
The League of Women Voters of Clackamas County strongly urges you to vote yes on HB 3470, the Climate Stability and Justice Act, at the work session on 5/18 in the House Committee on Rules. Passage of this bill will show that Oregon is serious about lessening the impacts of climate change and the reduction of greenhouse gas emissions and willing to take a leadership role. We believe this bill deserves a vote and consideration by the Oregon Legislature. Thank you for allowing us to make our voice heard on this vitally important issue.

Sincerely,

Marge Easley & Sonja Kollias

Co-Presidents, League of Women Voters of Clackamas County
