

Chair Hoyle and members of the House Committee on Rules:

I'm writing to express my strong support for HB3470 (the Climate Justice and Stability Act) and ask that you refer the bill to the full Ways and Means Committee with a "Do Pass" recommendation.

HB3470 would facilitate Oregon achieving the reductions in greenhouse gas emissions that Oregon has already set goals to meet. Public opinion polls show that the majority of the public is in favor of a cap on greenhouse gas emissions and that the public prefers this to other policy options.

Thank you for your support and I ask that you please post this as meeting material for the work session scheduled on HB3470 scheduled for today, June 24th.
