

Senator Devlin
Representative Buckley

FULL COMMITTEE PONY

SB 129

Relating to strategic investment

SB 129, as amended, caps annual Shared Services program payments to any one county at \$16 million and extends the program sunset to July 15, 2024, after which distributions are prohibited. The bill directs the Department of Revenue to distribute payments directly to counties. Previously these payments were transferred to the Shared Services Fund and expended by the Department of Administrative Services as Other Funds. The bill adds alternative timelines for calculations and distributions for calendar year 2015 to allow the current year's distributions to be made under the new requirements.

The Capital Construction Subcommittee recommends SB 129 be amended by the -A9 amendment and be reported out do pass, as amended.
