

APR 12 2021

OREGON COALITION OF LOCAL HEALTH OFFICIALS

DATE 8/20/20

Floor Letter in support of HB 2965 April 12, 2021

From the Desk of
Representative
Rob Nosse

Please support HB 2965.

HB 2965 only changes the date for local public health authorities to submit public health modernization implementation plans.

Oregon established public health modernization in law in 2015 legislative session. The Oregon Health Authority created a phased-in approach, as directed by past legislation, to public health modernization. It will take more than one funding cycle to meet the needs of all Oregonians.

HB 2965 moves the date for implementing public health modernization from December 31st, 2023 to December 31st, 2025 to give the Legislature more time to fund the public health system and implement the model.

The following organizations support HB 2965:

06/10/21
