

Washington County Supports SB 611

Washington County Board of County Commissioners is offering its support for SB 611, Central Assessment. We appreciate the efforts of the Senate Revenue Committee to craft a path forward for central assessment tax policy in Oregon effectively ending 5 years of litigation.

Washington County believes SB 611 provides substantial benefit for all Oregonians and economic development value for communities and counties across Oregon interested in expanding Oregon's technology based economy.

There is benefit for Beaverton and Hillsboro, but also Prineville, Redmond and other rural communities in Oregon who are actively recruiting high-speed fiber networks and looking for expansion of a data center network thanks to the stability and certainty provided by SB 611.

SB 611 is a bi-partisan solution that is supported by a wide-range of interests including business organizations, trade unions and communities in Oregon.

We urge your support for SB 611.

Senator Chuck Riley
District 15

Board of County Commissioners
