

# PAID SICK DAYS ARE GOOD FOR OREGON

Nearly half of all Oregon workers can't take a day to recover when they get sick.

That means being a good parent or following doctor's orders can cost them a paycheck or even a job.

Paid sick days make us all stronger.

A Seattle city audit found businesses, jobs and wages all rose after paid sick days went into effect.

Kids heal better with parents at their side, and seniors get needed treatment.

Paid sick days keep us healthy and help prevent illnesses from spreading.

No one should have to choose between a paycheck and taking care of a loved one.
