**Measure Description:**

Authorizes court, as part of settlement or judgment in class action, to approve process for payment of damages.

**Government Unit(s) Affected:**

Department of Justice, Judicial Department

**Summary of Expenditure Impact:** See Analysis

**Local Government Mandate:**

This bill does not affect local governments' service levels or shared revenues sufficient to trigger Section 15, Article XI of the Oregon Constitution.

**Analysis:**

The measure requires the court to order that any residual funds that remain from a class action settlement, after payment of claims, attorney fees and costs, be distributed to the Oregon State Bar for the funding of legal services, specifically related to domestic violence and family law, provided by the Legal Services Program (aka, Legal Aid). Currently, unclaimed damages are returned to the defendant. Data on the amounts of unclaimed damages from class action settlements are unavailable and cannot be provided.

The measure requires the court to give notice to all members of an affected class that can be identified through reasonable effort and to define the class when certifying the class. The measure also allows for settlements that do not create residual funds.

There is a minimal fiscal impact to the Oregon Judicial Department (OJD) as a result of this measure. OJD anticipates having to conduct additional hearings to define the class in a case and to educate parties on the changes to class action process.

The State of Oregon currently provides, in the Oregon Judicial Department budget, \$11.9 million of Other Funds court fee revenues to the Legal Services Program each biennium. Any residual funds would be paid directly to the Oregon State Bar and be in addition to the state's support. Because the Oregon State Bar is not a state agency, however, the residual funds would not be included in the state budget and are not required to be continuously appropriated.

The Legislative Fiscal Office notes that the measure makes changes to the Oregon Rules of Civil Procedure (ORCP). The Council on Court Procedures retains authority to adopt amendments to the ORCP administratively.
