**WHAT THE MEASURE DOES:**

Modifies applicability of energy efficiency standards to apply to televisions and large battery charger systems manufactured on or after January 1, 2014. Clarifies efficiency standards apply to battery backups and uninterruptible power supplies for small battery charger systems not sold at retail manufactured on or after January 1, 2017.

**ISSUES DISCUSSED:**

- Makes corrections identified in rule making process
- Process for adopting standards through statute

**EFFECT OF COMMITTEE AMENDMENT:**

No amendment.

**BACKGROUND:**

In 2005, the Legislative Assembly set minimum energy efficiency standards for 11 types of appliances. In 2013, the legislature passed Senate Bill 692 which established minimum energy efficiency standards for additional items including televisions, large battery charger systems, inductive charger systems, small battery charger systems with certain exceptions and high light output double-ended quartz halogen lamps.

Senate Bill 20 modifies the applicability of certain standards that were adopted as a part of the 2013 legislation.
