Versions are Considered Official*

Measure Description: Increases the annual maximum amount of film and video tax credits that may be sold from \$10 million to \$20 million. Makes other changes to how the funds are appropriated. Establishes the Task Force on Oregon Film and Media Production. Applies to fiscal years beginning on or after July 1, 2015.

Revenue Impact (in \$Millions):

	Fiscal Year		Biennium		
	2015-16	2016-17	2015-17	2017-19	2019-21
General Fund	-\$9.0	-\$9.9	-\$18.9	-\$10.0	-\$1.1

Impact Explanation: The preliminary estimated impact here is based on two primary assumptions. The first is that all additional \$10 million in tax credits are sold each year. The second is that roughly 90 percent of the tax credits are used to reduce tax liability each year. The former is based on the performance of past tax credit auctions. The latter is based on an analysis of income tax returns from 2005 through 2011. Also, the estimates reflect the current law sunset date of January 1, 2018, which is unchanged by the bill. Further analysis will be done when the bill is in the House Committee on Revenue.
