BACKGROUND:

In January, 2013, The Oregonian reported that in 2012, less than 55 percent of African Americans, Native Americans and students learning English as a second language in Oregon earned a diploma in four years.

House Bill 2016-A requires Oregon Department of Education (ODE) to develop and implement a statewide education plan for students who are black or African-American or students not covered under existing culturally specific statewide education plan, who have experienced disproportionate results in education due to historical practices. The plan must address: disparities experienced by students in achieving academic success, the historical practices leading to disproportionate outcomes for students and examine culturally appropriate best practices.
