BACKGROUND:

A school district receives additional weights for students in poverty families (0.25 extra for each student in poverty). For the school year 2015-16, ODE estimates that there will be over a 104,000 students in poverty and the additional weights from these students will reach over 26,000. Under current law, there is no specific reporting requirement related to the funding and expenditures based on poverty counts.

Separately, HB 3499 directs a school district to prepare and file an annual report related to the English Language Learner program. ODE is directed to report to the Legislature prior to January 1 of odd-numbered years.
