7 **“SECTION 3. (1) The Public Utility Commission shall hold a proceeding that includes op-  
8 portunity for public comment, in a manner determined by the commission, for the purpose  
9 of examining a range of community solar programs and the attributes of different commu-  
10 nity solar program designs that allow individual customers to share in the costs and benefits  
11 of solar facilities. For purposes of this subsection, attributes of different community solar  
12 program designs include ownership structure, eligibility criteria, length and terms of con-  
13 tracts, subscription pricing and how bill credits are calculated.**

14 **“(2) As part of the proceeding held under subsection (1) of this section, the commission  
15 shall consider:**

16 **“(a) Individual ratepayer access to a specific solar resource;**

17 **“(b) Costs to community solar program subscribers and non-subscribers;**

18 **“(c) The role of utilities; and**

19 **“(d) Any other reasonable consideration related to community solar program designs.**

20 **“(3) The commission shall recommend a community solar program design, or a set of  
21 preferred attributes of different community solar program designs, that best balances the  
22 resource value benefits, costs and impacts to ratepayers to the interim committees of the  
23 Legislative Assembly related to energy and business on or before November 1, 2015.”.**

24 In line 40, delete “3” and insert “4”.
