29 in ORS 811.109.

30 **SECTION 2.** ORS 810.180 is amended to read:

31 810.180. (1) As used in this section:

32 (a) "Designated speed" means the speed that is designated by a road authority as the maximum
33 permissible speed for a highway and that may be different from the statutory speed for the highway.

34 (b) **"Highway work zone" has the meaning given that term in ORS 811.230.**

35 [(b)] (c) "Statutory speed" means the speed that is established as a speed limit under ORS
36 811.111, or is established as the speed the exceeding of which is prima facie evidence of violation
37 of the basic speed rule under ORS 811.105.

38 (2)(a) A designated speed established under this section is a speed limit if the highway for which
39 the speed is designated is subject to a statutory speed limit under ORS 811.111 that is in addition
40 to the speed limit established under ORS 811.111 (1)(b).

41 (b) A speed greater than a designated speed established under this section is prima facie evi-
42 dence of violation of the basic speed rule if the designated speed is established for a highway on
43 which there is no speed limit other than the limit established under ORS 811.111 (1)(b).

44 (3) The Department of Transportation may establish by rule a designated [speeds] speed on any
45 specified section of interstate highway **within a highway work zone** if the department determines

1 that speed limits established under ORS 811.111 [(1)] are greater [or less] than is reasonable or safe
 2 [under the conditions that exist] with respect to that section of the interstate highway. [Designated
 3 speeds established under this subsection are subject to all of the following:]

4 [(a) The department may not establish a designated speed under this subsection of more than:]

5 [(A) Sixty-five miles per hour for vehicles described in ORS 811.111 (1)(b); and]

6 [(B) Seventy miles per hour for all other vehicles.]

7 [(b) If the department establishes designated speeds under this subsection that are greater than 65
 8 miles per hour, the designated speed for vehicles described in ORS 811.111 (1)(b) must be at least five
 9 miles per hour lower than the designated speed for all other vehicles on the specified section of inter-
 10 state highway.]

11 [(c)] (4) The department may establish a designated speed under [this] subsection (3) of this
 12 section only if an engineering and traffic investigation indicates that the statutory speed for the
 13 interstate highway is greater [or less] than is reasonable or safe under conditions the department
 14 finds to exist.

15 [(d)] (5) A designated speed established under [this] subsection (3) of this section is effective
 16 when appropriate signs giving notice of the designated speed are posted on the section of interstate
 17 highway where the designated speed is imposed.

18 [(4)(a)] (6)(a) The department may establish, pursuant to a process established by rule, a desig-
 19 nated speed on a state highway outside of a city. The authority granted under this subsection in-
 20 cludes, but is not limited to, the authority to establish different designated speeds for different kinds
 21 or classes of vehicles as the department determines reasonable and safe. A designated speed estab-
 22 lished under this subsection for any kind or class of vehicles may not exceed the speed limit for the
 23 highway for that kind or class of vehicles as established in ORS 811.111 or, if there is no speed limit
 24 for the highway other than the limit established in ORS 811.111 (1)(b), may not exceed 55 miles per
 25 hour.

26 (b) The department may establish a designated speed under this subsection only if an engineer-
 27 ing and traffic investigation indicates that the statutory speed for the highway is greater or less
 28 than is reasonable or safe under conditions the department finds to exist.

29 (c) A designated speed established under this subsection is effective when appropriate signs
 30 giving notice of the designated speed are posted on the portion of highway where the designated
 31 speed is imposed.

32 [(5)] (7) After a written request is received [from a road authority for a highway other than a
 33 highway described in subsection (3) or [(4)] (6) of this section, the department, pursuant to a process
 34 established by rule, may establish a designated speed for the highway. The authority granted under
 35 this subsection includes, but is not limited to, the authority to establish different designated speeds
 36 for different kinds or classes of vehicles as the department determines reasonable and safe. The
 37 authority granted under this subsection is subject to all of the following:

38 (a) The written request from the road authority must state a recommended designated speed.

39 (b) The department may establish a designated speed under this subsection only if an engineer-
 40 ing and traffic investigation indicates that the statutory speed for the highway is greater or less
 41 than is reasonable or safe under conditions the department finds to exist.

42 (c) The department may not make a final decision to establish a designated speed under this
 43 subsection without providing the affected road authorities with notice and opportunity for a hearing.

44 (d) A road authority may file a written objection to a designated speed that is proposed by the
 45 department under this subsection and that affects the road authority.

1 (e) A designated speed established under this subsection is effective when appropriate signs
2 giving notice of the designated speed are posted on the portion of the highway where the designated
3 speed is imposed. The expense of erecting any sign under this subsection shall be borne by the road
4 authority having jurisdiction over the portion of the highway where the designated speed is imposed.

5 (f) The department, pursuant to a process established by rule, may delegate its authority under
6 this subsection with respect to highways that are low volume or unpaved to a city or county with
7 jurisdiction over the highway. The department shall delegate authority under this paragraph only
8 if it determines that the city or county will exercise the authority according to criteria adopted by
9 the department.

10 [(6)] (8) The department may override the speed limit established for ocean shores under ORS
11 811.111 (1)(c) and establish a designated speed of less than 25 miles per hour on any specified section
12 of ocean shore if the department determines that the speed limit established under ORS 811.111 (1)(c)
13 is greater than is reasonable or safe under the conditions that exist with respect to that part of the
14 ocean shore. The authority granted under this subsection is subject to all of the following:

15 (a) The department may make the determination required under this subsection only on the basis
16 of an investigation.

17 (b) A designated speed established under this subsection is effective when posted upon appro-
18 priate fixed or variable signs on the portion of ocean shore where the designated speed is imposed.

19 [(7)] (9) A road authority may adopt a designated speed to regulate the speed of vehicles in
20 parks under the jurisdiction of the road authority. A road authority regulating the speed of vehicles
21 under this subsection shall post and maintain signs at all park entrances to give notice of any des-
22 ignated speed.

23 [(8)] (10) A road authority may establish by ordinance or order a temporary designated speed
24 for highways in its jurisdiction that is lower than the statutory speed. A temporary designated speed
25 may be established under this subsection if, in the judgment of the road authority, the temporary
26 designated speed is necessary to protect any portion of the highway from being unduly damaged, or
27 to protect the safety of the public and workers when temporary conditions such as construction or
28 maintenance activities constitute a danger. The following apply to the authority granted under this
29 subsection:

30 (a) Statutory speeds may be overridden by a temporary designated speed only:

31 (A) For a specific period of time for all vehicles; or

32 (B) For a specified period of time for a specific kind or class of vehicle that is causing identified
33 damage to highways.

34 (b) This subsection may not be used to establish a permanent designated speed.

35 (c) The authority granted by this subsection may be exercised only if the ordinance or order that
36 imposes the temporary designated speed:

37 (A) Specifies the hazard, damage or other condition requiring the temporary designated speed;
38 and

39 (B) Is effective only for a specified time that corresponds to the hazard, damage or other con-
40 dition specified.

41 (d) A temporary designated speed imposed under this subsection must be imposed by a proper
42 written ordinance or order. A sign giving notice of the temporary designated speed must be posted
43 at each end of the portion of highway where the temporary designated speed is imposed and at such
44 other places on the highway as may be necessary to inform the public. The temporary designated
45 speed shall be effective when signs giving notice of the temporary designated speed are posted.

1 [(9)] (11) A road authority may establish an emergency speed on any highway under the juris-
2 diction of the road authority that is different from the existing speed on the highway. The authority
3 granted under this subsection is subject to all of the following:

4 (a) A speed established under this subsection is effective when appropriate signs giving notice
5 thereof are posted upon the highway or portion of highway where the emergency speed is imposed.
6 All signs posted under this subsection must comply with ORS 810.200.

7 (b) The expense of posting any sign under this subsection shall be borne by the road authority
8 having jurisdiction over the highway or portion of highway where the emergency speed is imposed.

9 (c) A speed established under this subsection may be effective for not more than 120 days.

10 [(10)] (12) A road authority may establish by ordinance a designated speed for a highway under
11 the jurisdiction of the road authority that is five miles per hour lower than the statutory speed. The
12 following apply to the authority granted under this subsection:

13 (a) The highway is located in a residence district.

14 (b) The statutory speed may be overridden by a designated speed only if:

15 (A) The road authority determines that the highway has an average volume of fewer than 2,000
16 motor vehicles per day, more than 85 percent of which are traveling less than 30 miles per hour;
17 and

18 (B) There is a traffic control device on the highway that indicates the presence of pedestrians
19 or bicyclists.

20 (c) The road authority shall post a sign giving notice of the designated speed at each end of the
21 portion of highway where the designated speed is imposed and at such other places on the highway
22 as may be necessary to inform the public. The designated speed shall be effective when signs giving
23 notice of the designated speed are posted.

25 **fenses committed on or after the effective date of this 2015 Act.**
