SB 442-3 (LC 2232) 2/17/15 (MBM/ps)

PROPOSED AMENDMENTS TO SENATE BILL 442

- In line 2 of the printed bill, after the semicolon insert "creating new provisions; amending ORS 433.102, 433.267 and 433.273;".
- 3 Delete lines 5 through 17 and insert:
- "SECTION 1. Section 2 of this 2015 Act is added to and made a part of ORS 433.235 to 433.284.
- "SECTION 2. The Legislative Assembly finds and declares that:
- "(1) School immunization requirements mandated by state legislatures have played a major role in achieving and maintaining low rates of vaccine-preventable diseases in the United States;
- "(2) All states and the District of Columbia require children entering the public school system to provide documentation of having met a state immunization requirement;
- "(3) State laws requiring immunizations and providing for the documentation of the immunization status of children should be viewed as part of the efforts to control or eliminate vaccine-preventable diseases;
- "(4) When the rate at which children are opted out of state immunization requirements increases, individual and community risks associated with vaccine-preventable diseases also increase;
- "(5) State laws that provide exemptions to a state immunization requirement, either by exempting persons from the requirement on the basis of personal belief or by creating a process whereby a child may

- easily be opted out of the requirement, lead to high numbers of children not having met the state immunization requirement and lead to
- an increase in the risks associated with vaccine-preventable diseases;
- 4 "(6) Certain children are unable to be immunized for a medical
- 5 reason, including children who are under the age of one, children with
- 6 immune disorders caused by chemotherapy or other factors and chil-
- 7 dren who have a naturally suppressed immune system;
- 8 "(7) As the rate of immunizations among all children increases, the
- 9 risks associated with vaccine-preventable diseases for children who are
- 10 unable to be immunized decreases;
- 11 "(8) The immunization rate of children in this state is not sufficient
- 12 to protect children who are unable to be immunized, with all counties
- 13 falling below the rate at which 'herd immunity' prevents the spread
- of vaccine-preventable diseases, such as mumps, measles and rubella;
 - "(9) Children who are not immunized are also in danger of con-
- 16 tracting noncontagious vaccine-preventable diseases, such as tetanus;
- 17 "(10) The Centers for Disease Control and Prevention currently re-
- 18 commends routine vaccinations for 17 vaccine-preventable diseases for
- 19 all children who are able to be immunized;
- 20 "(11) The National Institutes of Health similarly recommends rou-
- 21 tine vaccinations for vaccine-preventable diseases for all children who
- 22 are able to be immunized;

- 23 "(12) States that do not have laws providing an exemption to a state
- 24 immunization requirement for nonmedical reasons, such as
- 25 Mississippi, maintain a high rate of immunization among all children
- 26 and benefit from a decrease in the risks associated with vaccine-
- 27 preventable diseases;
- 28 "(13) All democratic societies should try to balance the rights and
- 29 views of a variety of constituencies; and
- 30 "(14) Children who are unable to be immunized for medical reasons

should be granted an exemption to any relevant state immunization requirement.

"SECTION 3. ORS 433.267 is amended to read:

- "433.267. (1) As a condition of [attendance in any] attending a school or children's facility in this state, every child through grade 12 shall submit to the administrator of the school or facility, unless the school or facility the child attends already has on file a record that indicates that the child has received immunizations against the restrictable diseases prescribed by rules of the Oregon Health Authority [as provided in] pursuant to ORS 433.273, one of the following:
 - "(a) A document, signed by the parent of the child, a practitioner of the healing arts who [has within the scope of the practitioner's license the authority] is authorized under the laws of this state to administer immunizations or a representative of the local health department, certifying the immunizations the child has received; or
 - "(b) A document, signed by a physician or a representative of the local health department, stating that the child should be exempted from receiving a specified immunization because of [indicated medical diagnosis; or] a medical condition.
- "[(c) A document, on a form prescribed by the authority by rule and signed by the parent of the child, stating that the parent is declining one or more immunizations on behalf of the child. A document submitted under this paragraph:]
- "[(A) May include the reason for declining the immunization, including whether the parent is declining the immunization because of a religious or philosophical belief; and]
- "[(B) Must include either:]
