

**PROPOSED AMENDMENTS TO  
SENATE BILL 94**

1 In line 4 of the printed bill, before “Taking” insert “(1)”.

2 After line 9, insert:

3 “(2) The Oregon Homeland Security Council shall identify the vulner-  
4 abilities of the critical energy infrastructure hub on the lower Willamette  
5 River to a Cascadia magnitude nine earthquake and a resulting tsunami.

6 “(3) The council shall determine the appropriate capacity of necessary  
7 emergency generators, recommend the necessary emergency generators to be  
8 installed at liquid fuel storage and transfer facilities and make any other  
9 recommendations necessary to ensure a reliable fuel supply for emergency  
10 response in this state following a Cascadia earthquake.

11 “(4) The council shall partner with private entities to evaluate options to  
12 diversify liquid fuel storage and transfer locations and to identify alternative  
13 liquid fuel transportation corridors for the purpose of reducing vulnerability  
14 to seismic events in this state.”.
