

**PROPOSED AMENDMENTS TO
SENATE BILL 94**

1 In line 4 of the printed bill, before “Taking” insert “(1)”.

2 After line 9, insert:

3 “(2) The Oregon Homeland Security Council shall identify the vulner-
4 abilities of the critical energy infrastructure hub on the lower Willamette
5 River to a Cascadia magnitude nine earthquake and a resulting tsunami.

6 “(3) The council shall determine the appropriate capacity of necessary
7 emergency generators, recommend the necessary emergency generators to be
8 installed at liquid fuel storage and transfer facilities and make any other
9 recommendations necessary to ensure a reliable fuel supply for emergency
10 response in this state following a Cascadia earthquake.

11 **“SECTION 2. (1) State agencies with emergency preparedness re-
12 sponsibilities and local governments may establish public-private
13 partnerships to evaluate options, plan and finance projects that eval-
14 uate the diversification of liquid fuel storage and transfer facility lo-
15 cations and identify alternative liquid fuel corridors.**

16 **“(2) A local government may issue revenue bonds pursuant to ORS
17 287A.150 to finance the costs associated with the projects listed in
18 subsection (1) of this section.**

19 **“(3) The Oregon Homeland Security Council may impose require-
20 ments to ensure that financing methods are consistent with the
21 projects listed in subsection (1) of this section.**

22 **“(4) A local government may make loans to private entities fi-**

1 **nanced with the net proceeds and interest earnings of revenue bonds**
2 **authorized by section (2) of this section.”.**

3 _____
