

To the Chairman and Committee members;

I believe HB 4093 would impose unfair fees on Oregon citizens.

Moreover, the plan advocated by Multnomah County places high value county assets (approx. \$300 million) at risk by building in a FEMA highrisk zone. Multnomah County has asked for \$32 million in funding for one project, and will ask for additional \$93 million for the same project. This site is one block from maximum flood stage in downtown Portland.

Sincerely,
Ronald N. Swaren
Portland, Oregon
